87th Year, No. 31 | Truckee, Nevada County, California | Thursday, July 19, 1956 | 10c Per Copy— $3 Per Year | Since 1869

Second Deputy Is Approved After Long Discussion

Western End Of County To Add Two More Men At Office

Official approval for Sheriff Wayne Brown to employ a second deputy sheriff to serve the eastern section of Nevada County has been given by the board of supervisors and the necessary appropriation has been included in the 1956-57 budget.

Supervisor H. G. Loehr, who made the request, said he was not without opposition but that other members of the board finally aggreed to the long-standing local request.

The position pays $281 a month to start with a top salary of $325.

Need for the second deputy to patrol and police this fast developing region has been pointed out from time to time by various local organizations and individuals and has long had the approval of Sheriff Brown, District Attorney Vernon Stoll and other county officers.

The problem now, Loehr declared, is to find a man with sufficient experience and knowledge of the job to take over the complicated duties on a full time basis.

Request Denied

Supervisor Loehr's request that a five percent increase across the board in salaries and wages for all county employes, was flatly rejected by the other four members. However, the local supervisor's suggestion for granting sick leave to county employes was unanimously adopted.

Increased living costs and salary increases in other lines of endeavor were cited by Loehr as a support for his suggestion. The sick leaves calls for one day per month accruing up to 30 days with all leaves over three days calling for a doctor's certificate.

At the same time the board approved employment of two additional deputies for the county seat. This will provide for a five-day week for the two office deputies.

Frank Opposed

Supervisor John Frank was the only member of the board who refused to vote for a second Truckee deputy, reiterating a former statement that this area should incorporate and provide its own law enforcement. Loehr again pointed out that regardless of whether or not the area is incorporated, it is entitled to some return on its tax expenditures.

WOMAN DIES WHILE ON LAKE VACATION

An autopsy has been ordered by Coroner Alvah Hooper to determine whether or not Mrs. Irene Joan Hanson, 38, Burlingame died as the result of accidently taking an overdose of sleeping pills while vacationing with her family at Lake Tahoe.

Mrs. Hanson was rushed to the Tahoe Forest Hospital last Monday night for treatment but was pronounced dead on arrival. The body was shipped to her home at Burlingame by the Truckee Colonial Mortuary Tuesday.

Mrs. Hanson had been spending a vacation with her husband, Erving and her children and is believto to have accidentally taken too many sedatives.

Sunshine Girls Return From Richmond Session

A group of members and advisors of Donner Council No. 13, Pythian Sunshine Girls returned from the 15th annual grand session held July 13 and 14 at Richmond.

Nona Rae Coffey was the official representative from the local council and was accompanied by Mesdames Charles Heller, Glenn Miller, advisor and assistant advisor and Ireda Harris, Wilma Hensley, Arlene Copeland, Valerie Mandeville, Mary Ann Miller.

Visitor Breaks Ankle And Cancels Eastern Vacation

Mr. and Mrs. D. McGihon have as their guests, his parents, Mr. and Mrs. D. L. McGihon of Long Beach.

The local man's mother had the misfortune to break her ankle when she first arrived here, which necessitated the visitors cancelling their plans for an eastern trip at this time.

New Air Condition Unit Installed At Smart's

To further add to the comfort of his patrons, Reg Smart is installing a cooling air conditioning unit at Smart's. The new apparatus will serve the dining room, cafeteria and cocktail lounge.

At the same time, Eddie Sardi, manager of the cocktail lounge, announced that hors d'oeuvres will be served between 6 and 7 p.m.

At Lake—

The Edmond Bullard family of Templeton is vacationing at Tahoe City.

Truckee Lodge Of Eagles Ceases As Interest Here Lags

Truckee Aerie No. 1124, Fraternal Order of Eagles, has ceased to exist.

This 50-year-old lodge voluntarily surrendered its charter to George L. Perry, secretary of Sacramento Aerie No. 9 and deputy grand secretary for William G. Watson at a meeting here Thursday evening.

Thus ended, for the time being at least, one of the most active and at one time most progressive fraternal organizations in this region. This possibility that the lodge may be activated is quite likely since it is financially quite a wealthy sound and the funds are now in the keeping of the grand lodge and will be handed over to the local order when and if it is reorganized.

In the meantime, local members and members at large are transfering to Victory Aerie, a branch of the F. O. E. embracing members not affiliated with any particular Aerie. There benefits and privileges are thus protected fully and all will be so notified by Perry personally.

To wind up the affairs of the Aerie and to promote any activity here, E. C. McReynolds has been chosen president pro-tem and E. A. Parker, secretary pro-tem.

The lodge "folded" primarily because of the fact that most of the members have either left the vicinity or have failed to take an active interest in the affairs of the organization.

The ancient charter, bearing the names of 60 local residents, was taken from the wall in Odd Fellows hall and will be dispatched to the national office.

The only present resident of Truckee whose name is enscribed on the charter is Charles E. Smith.

Judge, Mrs. Snell Married 50 Years

The Golden Wedding of Superior Judge and Mrs. James Snell will be celebrated at an open house on Saturday afternoon, July 28 between the hours of 3 and 5:30 o'clock in Bret Harte Inn in Grass Valley.

The well known Nevada County couple were married on July 25, 1906 by Rev. Swan, then the Rector of the Episcopal Church at Grass Valley.

Mrs. Snell is the former Emma Nankervis of Grass Valley, a graduate of the high school there in 1900.

Judge Snell was a high school graduate in 1896 in the neighboring town of Nevada City. He worked in the mines there for several years, studying law at night and was admitted to practice in 1909.

The couple have reared their family and been very active through the years in the community life of their home town. Judge Snell is kept busy in the Nevada County court and those of the surrounding district.

They are already receiving the felicitations of their many friends upon the approaching event.

Girl Scouts Attend Camp Held In Meeks Bay Area

For the third consecutive year, members of Donner Troop Girl Scouts have attended summer Camp Wasin at Meeks Bay, Lake Tahoe. Returning home last week from the established camp are Patsy Jensen and Steffi Cozzi following a two weeks session. Leaving to be gone for the same period of time are Linda and Judy Giovannoni, Ruth Parkhurst and a former troop member, Susan Scow of Porterville.

Ambulance Drivers Are Now Deputy Coroners

Coroner Alvah Hooper today announced that he has appointed Jack Ellis and John Lloyd, operators of the Truckee Ambulance Service, to serve as deputy coroners in this area. The appointments, he declared wll serve to expedite examinations in accident cases.

N. F. Dolley, long-time deputy coroner here, will continue to serve in the same capacity, Hooper said

At Santa Barbara—

Mrs. Jack Pistoia, accompanied by her sister, Mrs. Felix Kohler, have returned after spending three weeks at Santa Barbara.

O'Rourke Resigns To Accept Post In Bay Area School

Local Superintendent Will Be Replaced As Board Seeks Applicants

Everett V. O'Rourke, for the past seven years superintendent of the Tahoe Truckee Unified School District, Thursday night presented his resignation to the board of governors and announced that he has accepted a similar position with the Belmont Elementary School District. The resignation becomes effective August 16.

O'Rourke's resignation was prompted by the illness of Mrs. O'Rourke, which requires daily specialized treatment at a San Francisco hospital. The new position will permit the local school official to be constantly near his wife during her illness.

The school board, headed by Reginald Smart, accepted the resignation reluctantly and with regrets, but immediately set out to secure a replacement, reviewing several applications which had been supplied by the educational association placement board.

O'Rourke came to Truckee as district superintendent prior to the completion of the new unified high school and was the first superintendent after the district voted to unify. He has worked tirelessly to improve conditions and has provided the district with one of the most modern and efficient school systems in the state.

The board is also faced with the necessity of employing a principal for the high school, since O'Rourke held this position jointly with the superintendency of the district. Conrad Briner, the assistant principal, had been in charge of the high school's activity, has taken a year's leave of absence to obtain a degree which will qualify him to take over as high school principal.

Smart said the board has decided the starting salary for the replacement of O'Rourke will be fixed at $9,500 annually, this being the accepted salary for the position to obtain a man fully qualified to take over the complicated task of managing four elementary and one joint high school.

The O'Rourkes own their home near the old quarantine station, east of Truckee which they hope to sell in the near future.

MORE FIRES STOPPED IN LOCAL DISTRICT

Fire No. 6 in the Truckee District of th eTahoe National Forest was caused by lightning and because of the fast work of the supression crew did little damage. The blaze was reported four miles northwest of Martis Peak by the lookout there at 6:30 p.m. last Thursday.

All other five fires in the district wree man caused, Henry Toccalini of the forest service declared.

A grass fire caused by a hot brake shoe on the Southern Pacific Railroad across from the Flycasters Club Wednesday morning was blaze no. 7 in the Truckee area. Members of the U. S. Forest Service crew and railroad employees quickly duosed the flames before they could spread to the forest.

PONY LEAGUE WILL PLAY TAHOE TEAM

Dave Morey, who has been managing the Little League, sponsored by th eTruckee Athletic Club of which he is president, today announced that games between the two teams are held each Tuesday conventing at 6:30 o'clock.

This Friday evening at 6, the Pony Leaguers, embracing boys from 12 to 15, will meet the Pony team from Tahoe at the Truckee ball park.

Back From Trip—

Mrs. Hugh Smith, accompanied by her two children and their grandmother, returned home this week after a visit in Los Angeles.

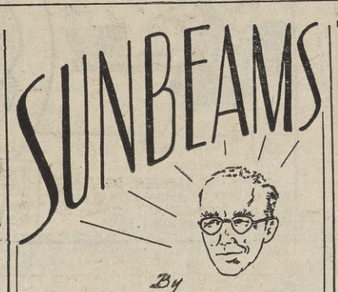
Back From Trip—

Mr. and Mrs. Arthus Kehm and family have returned after spending their vacation in Canada where they visited Lake Louise, Banff and other points of interest.

Guests Here—

Mr. and Mrs. Michael Gularian of Fresno have been guests of their nephew, Richard Joseph and family at Gateway Motel.

SUNBEAMS



By WALTER M. BARRETT

Although there is a law prohibiting throwing anything from cars along the highway, the litterbug is still with us. It has been estimated that thirty million dollars are spent each year removing litter from rural highways alone— aside from the millions spent in towns and cities. Millions of tons of waste paper, bottles and tin cans are thrown about public spots and along the highways by thoughtless tourists and vacationists. Our own highways bear mute evidence of this carelessness and there are apparently few travelers who abide by the law. When the law first went into effect, the arrest of motorists provided good reading and served as warnings to others but apparently it was a short lived enforcement policy and more important things were found to be done. It would be our suggestion, however, that motorists and campers be a little more cooperative and use little bags more faithfully.

Square Dancers Hold Local Affair

More than 20 square dance groups represented by approximately 300 members gathered at the gymnasium of the high school here Sunday in one of the most successful festivals ever held.

Throughout the afternoon the dancers swung and swayed, adjourning at 5 p.m. to enjoy a picnic at Donner Lake. They reassembled to continue the dance at 7 in the evening.

At the scene of the festival, the PTA served coffee and soft drinks and the Boy Scouts filled a similar need at the picnic grounds.

Reno was represented by seven clubs and others came from Sloat, Ely, Fallon, Auburn, Portola, Grass Valley, Lincoln, Westwood, Sierraville, Roseville, Quincy, Kings Beach and Truckee. The Tahoe Twirlers of Kings Beach and the Donner Dancers of Truckee were hosts with Lloyd Everett of the latter club officiating as chairman.

There were 14 expert callers, Fred Bates of Quincy, Tom Zema, Gary Grant, Inez Baker and Louise Capurro of Reno, Fred Gordon of Roseville, Robert Lee of Grass Valley, Robert Ward and Al Bertolucci of Lincoln, Don Montero of Reno, Ray Vierra of Concord and Sophy and John Levra of Kings Beach.

ROSE OPENS NEW Z MART IN GREENVILLE

The Z Market at Greenville opened Monday with Harvey Hocker, former manager of the Truckee Z Market in charge as partner. The ner store opened by Dave Rose of Truckee is being operated similar to the one here with the exception that there is no variety department.

Zeph Rose, brother of the owner, has assumed a partnership in the Truckee store and has taken over the management. Dave Rose is dividing his time between the two establishments.

Observe Birthdate

Mr. and Mrs. Ed Lowell of Sacramento and former local residents were guests of Mr. and Mrs. William Englehart, Sr., during the week end. During the visitors stay the July 14 birthdate of Englehart was celebrated at a dinner party.

New Driver—

Bud Phillips of Sacramento has been employed as a driver for the Coca Cola Bottling Company here. He joins his brother Robert in working for the concern.

Guests From Paradise—

Mr. and Mrs. Oscar Schumacher entertained Mr. and Mrs. B. Coleman of Paradise last week end.

House on Proposed Site—

Mr. and Mrs. R. T. Joslin of San Francisco are enjoying their 30th summer here but do not expect to return next year as their property is on the state's proposed freeway site.

Travel Over US 40 Continues To Set Record In Volume

Truckee Station Is Second As Entry Port, June Count Reveals

Records are being shattered by the number of vehicles entering California through the department of agriculture's quarantine station here, the monthly report for June reveals.

During last month, 60,888 cars, 3,729 trucks and 796 buses, with a passenger count of 210, 402 people, entered California over U. S. Highway 40.

This compares with 39,261 cars for May and 51,006 for June, 1955, an increase of more than 15 percent over last year.

Highway 40 was far ahead of all other highways entering the state from the number of vehicles with the exception of Yermo which reported 76,962.

On U. S. Highway 50 at Meyers, the count for last month was 22,-149 cars, 318 trucks and 43 buses, as compared to 16,889 cars during June last year and 12,708 for May, 1956.

The heaviest travel months, July and August are still to be counted, but are expected to establish all-time records this summer.

Car Accidents Are Frequent In Area

When Joseph Ralf Adams, 19, Bakersfield, fell asleep at the wheel of his car last Friday near Rainbow Tavern the vehicle skidded along the shoulder of the highway 32 feet, struck a pile of rocks and literally flew through the air a distance of 42 feet and wrapped itself around a tree 12 feet from the ground.

Adams escaped with minor injuries but was treated at the Tahoe Forest Hospital. State Patrolman Carroll Maynard cited the youthful driver for speeding and not having his vehicle under control.

William Thomas Lacy of Novato was injured when he attempted to pass a truck five and a half miles east of Truckee and the car went out of control and ran off the highway. He was cited by Patrolman William Gautsche for speeding.

Cars driven by Henry Yee of Sacramento and Lee Wayne Robnett of San Jose collided a mile east of Hirschdale when Robnett attempted to pass a truck and did not have sufficient clearance. No one was injured.

Mrs. Cecilia Duzic of Rock Springs, Wyo., was injured when a car driven by her husband, Nick, collided with a Truckee Tahoe Lumber Company truck at the Tahoe Truckee Wye Thursday at 2 p.m.

Duzic, accompanied by his wife and three small children was traveling east and the truck, driven by Walter F. Wallace, Truckee was making a left turn on highway 89. Duzic was cited for speeding and Wallace for failure to yield the right of way. Patrolman Carroll Maynard made the investigation.

SUN WRITER TELLS OF EMERALD BAY SPAN

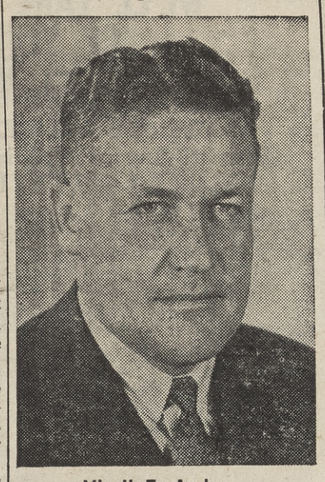
In his "Affairs of State" this week, H. C. MacArthur, Capitol News Service manager at Sacramento, who writes for the Sierra Sun, gives an excellent argument on the Emerald Bay crossing which has been a controversial issue between property owners, the state division of beaches and parks and others for several months.

MacArthur's article is concise and to the point and readers of the Sierra Sun are urged to scan it today.

"Swanee" In Hospital After Slight Stroke

Mrs. Eleanor Swanson, widely known Lake Tahoe resident and for many years the Tahoe correspondent for the Sierra Sun, is in the Washoe Medical Center at Reno after suffering a slight stroke. She reports not feeling too badly and is anxious to see and hear from her friends. Everyone hopes "Swanee" will soon have a complete recovery.

New Superintendent



Virgil E. Anderson

Anderson Named SP Superintendent For Local District

Vigil E. Anderson, present superintendent of Southern Pacific's Salt Lake division, will become head of the Sacramento division on August 1, it was announced today.

Robert A. Miller, superintendent of the division with headquarters at Sacramento for the past two years, will take command at San Francisco of SP's Coast division.

Milton A. McIntyre, assistant superintendent of the Los Angeles division, is being promoted to replace Anderson as superintendent at Ogden, Utah.

Anderson, head of the Salt Lake division since 1954, began his career with Southern Pacific in 1928 as a crew caller at Oakland.

Advancing as a yardman, engineforeman and yardmaster, he became assistan trainmaster in 1943. He then went to Tucson as traint master and later became terminal superintendent there.

He went to the Salt Lake division as superintendent in 1947 and in 1951 became superintendent of transportation in San Francisco.

As superintendent at Ogden, Anderson was responsible for SP operations between Sparks, Nevada, and Ogden, Utah, including maintenance of the railroad's famed Lucin fill and trestle across Great Salt Lake.

TRUCKEE LOSES IN LOVELOCK CONTEST

In a well-played game at the Truckee ball park Sunday afternoon, the Lovelock Merchants walloped the Truckee Athletic Club 6 to 3.

Both teams worked hard and some very fast baseball was witnessed by a rather substantial bunch of spectators.

Ed Frates, who played an errorless game at second, led the hitters for the local team, getting three for four, a single, a double and a triple. Loca, Lovelock rightfielder, smacked two homers in his first two times up.

Louis Goicoa did a stellar job on the mound for Truckee with Gordy Stewart receiving. Bob Heryford, Bill Campbell, Otis Cluck, Al Wakefield, Aaron Thomas, Frank Smith, Ralph Garcia, Frank Giovannoni and Mike Goicoa made up the balance of the Truckee team.

FUDAYS LEAVING TO RESIDE IN ROSEVILLE

Mr. and Mrs. Kenneth Fuday, Truckee residents for the past several years where the former has been Truckee district foreman for the division of highways are planning to leave shortly after August 1 to make their home at Roseville.

Fuday has requested a transfer to the valley district. His successor here has not been named. The Fudays are offering their home here for sale and will purchase a new home in the valley.

Both are well liked here and their many friends will regret their leaving.

Urges Airport

Clyde Barnett, director of the California Aeronautics Board, spoke before the Truckee Lions Club last night urging support for the airport proposed to be constructed here. He was accompanied by William Drumm, also a board official.

Washoe Project Is Assured As Both Houses Give Nod

Joint Committee Expected To Put Final Touch On Bill Soon

The $43,000,000 Washoe project bill to build the greatest reclamation and power development since the Hoover Dam, has passed the house and barring complications is expected to receive approval of the house-senate conference at Washington this week.

The passage of the bill came after Sam Rayburn of Texas, the house speaker, called for a voice vote.

Minor changes may be made in the conference, but the action by the lower house on the bill, which had already won the approval of the senate, give assurance that the project is well on its way to becoming a reality.

After the house vote, Senator Alan Bible of Nevada expressed his thanks to Congressman Clair Engle of this district for the cooperation in getting the bill through the lower house.

Sportsmen of the area will be pleased to know that the bill provides for $2,000,000 for fish and wildlife protection and restoration facilities and $100,000 for recreation purposes, both items non repayable.

Final passage will permit a $791,000 flood control project to be carried out along the Truckee River, principally along the channel in the Reno area and its mouth at Lake Tahoe. This was originally okayed by Congress in 1954 but required the reclamation-power program be approved before flood control work could start.

Stampede Reservoir

Major construction of the Truckee-Carson system development on the Nevada California border includes a 175,000-acre-foot reservoir at Stampede on the Little Truckee River and a 115,000-acre-foot reservoir at Watasheamu, the Carson River's west fork.

Cal-Vada power plant below Stampede on the main Truckee and the Watasheamu hydro-electric facility would provide 92 million kilowatt hours annually.

Trucks Cited For Overweight Loads

State Patrolman H. L. Petois, whose specialty is checking upon overloaded trucks, doesn't believe in spending his time purely as a witness, he demonstrated here last week when he was summoned to testify at a jury trial in the court of Judge F. W. Wilson.

As Patrolman Petois was nearing Truckee to testify he spotted three trucks hauling for the Burney Lumber Company, which appeared too heavy under the law. While the court and bailiff were busy summoning jurors, Petois put the suspected trucks on scales and, according to his calculations found all with excessive loads.

The loggers protested the decision and one of the loads was taken to accurate scales in Nevada where it was determined the officer had given the driver the benefit of 300 pounds.

If it is found the three are guilty as charged, the law specifies the penalty will total $1209, Judge Wilson said.

The jury which heard the case against Clifford R. Buck during which Petois testified, found him guilty and the penalty was $189. Attorney Albert Johnson notified the lower court he was appealing to the superior court. Deputy District Attorney Leo Todd handled the prosecution.

JUDGE SEEKS SNOW SHOVELER FOR JOB

An item in this year's county budget provides for a part-time janitor at a salary of $240 a year for the Truckee Judicial District Court room.

"Now," Judge F. W. Wilson wonders, "where can I find a man strong enough to shovel snow off the sidewalk who will work for $20 a month."

Driver Applicants May Call For Appointments

Drivers wishing to obtain California licenses and who require an examination are asked to telephone Examiner Glenn Freeman at 78 before going to the office. This, Freeman explained will avoil delay both by the applicant and the examiner. Freeman is at the office each Monday and Tuesday.

Family Visitors—

Mr. and Mrs. Harry Eaton had as their house guests, Mr. and Mrs. Dan Whitney and daughters of Sacramento, during the weekend. Mrs. Whitney is the daughter of Mr. Eaton.

In Utah—

Mrs. Lauren Russell accompanied her parents to visit relatives in Utah last week.

Many Uses

Anise seed is used in making licorice confections, in baking, in the cordial anisette and other liquers.

Landmark

The highest point in San Francisco, Mount Davidson, 926 feet, is surmounted by a cross 103 feet high.

AFFAIRS OF STATE
by Henry C. MacArthur

SACRAMENTO —(CNS)— Some people apparently can't wake up to the fact that California is a growing state, and that its people would like something in the way of progress from some of its state officials.

The state park commission apparently comes within this category in its constant endeavor to sacrifice facility, convenience and usage of property that belongs to the people of the state for its so-called "natural beauty" preservation, which is, from all indications, more important to the members of the commission than a return to the people on the investment they have made in beaches and parks.

The latest effort of the State Park Commission in this respect is the adoption of a resolution opposing the construction of a road across the inlet of Emerald Bay, at Lake Tahoe, on the grounds that such construction would mar the "natural beauty" of this gem of the Sierra.

The question arises here as to whether the "natural beauty" of the bay is more important than a facility for the convenience of the hundreds of thousands of people who want to use the area for recreational purposes.

Already, the state park commission has harped so much on the "natural beauty" of D. L. Bliss State Park, which is to the north of Emerald Bay, that literally hundreds from the park and denied the privi- of people have been turned away lege of camping on state property because the park commission does not have enough camp sites to take care of the public, and to allow camping at places other than camp sites would mar the "natural beauty".

Mor ethan twenty years ago, there was a great weeping, wailing and gnashing of teeth when it was proposed to erect the Golden Gate Bridge across the entrance to San Francisco Bay. Such a structure, it was contended, would mar the gorgeous sunsets and detract from the unspoiled approach to San Francisco.

The bridge, a necessity and a convenience, was erected anyhow, and today stands as a monument to the natural beauty of San Francisco. And a generation has grown up which never knew there was no Golden Gate Bridge at one time.

This undoubtedly would be the case at Emerald Bay if the plans for a low level road are carried out, and a bridge erected across the inlet. Such a road would be immeasureable in value for the convenience of tourists. It would eliminate the long haul around the bay, frequently with heavy trailers on a narrow and dangerous road, which even now in the middle of the tour- is season is closed up because of land-slides.

Such a road would also provide easy access to the Emerald Bay area, most of which has been acquired by th estate theoretically at least for the pleasure and recreation of the people.

But of course, if the state fails to build the low-level road, it will be much harder to get to this choice picnic and camping area, which, if the same policy is followed as in the case of the D. L. Bliss State Park, may be just what the state park commission wants.

In the opinion of many people, the public has been barred long enough from using its own property, and the time is long past for the state park commission to adopt a new attitude which would permit maximum usage of the recreational areas of the state it has so avidly purchased with the people's money.

MORE COUNTIES IN STATE GET SALES STATE COLLECT TAX

SACRAMENTO —(CNS— The state board of equalization announced that nine more California counties and 60 more cities will begin collecting sales taxes on July 1.

This brings the number of counties having sales taxes to 16 and the number of sales tax cities to 131, the board said.

Counties which will impose sales taxes beginning July 1 are Alameda, Mendocino, Merced, Monterey, San Bernardino, San Joaquin; Santa Cruz, Sonoma, and Tuolumne.

The above counties contained 57 of the cities which will climb aboard the sales tax bandwagon. The other three are in Los Angeles and Orange counties, which already have sales tax levies.

The new levies will be administered by the state.

Jimmy Jordan, Colorful Railroader "Pulls Pin"

Jimmy Jordan, boss of Southern Pacific's Coast Division and one of the last of the west's rough and ready railroaders, is about to "pull the pin".

The dean of SP's division superintendents will retire on July 31, J. W. Corbett, SP vice president in charge of system operations, announced in San Francisco today.

Friends of the cigar-chewing, desk-thumping Scotch-Irishman, will observe "Jimmy Jordan Day", on Saturday, July 21, at the Salinas Rodeo. There'll be a plaque prseentation and a special parade.

Next day, Jordan will have a more private celebration. The day will mark his 49th wedding anniversary.

J. J. Jordan's already legendary SP career began at Rocklin in 1905. Starting out as a fireman, he advanced to top man in the Coast Division 24 years ago.

He and his wife, Agnes, make their home at 2212 Hillside Drive, Burlingame. The Jordans plan to raise blooded horses on a ranch near Cisco, in the Sierra foothills.

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the state Highway Engineer, Room 510, Public Works Building, Sacramento, California, until 2 o'clock p.m. on July 25, 1956, at wheih time they will be publicly opened and read in the Assembly Room of said building, for construction on state highway in accordance with the specifications therefore, to which special reference is made, as follows:

El Dorado, Placer, Nevada and Sierra Counties, at various locations (III-E.D., Pla, Nev, Sie-11, 15, 17, 37, 38, 83-Var, about 55.3 miles in net length, seal coat to be applied to existing surfacing.

Bids are required for the entire work described herein.

In accordance with the provisions of Section 1770 of the Labor Code, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done as follows:

Rate Per Hour	Classification
$2.595	Apprentice (oiler, fireman, watchman)
2.48	Bootman
2.325	Flagman
3.095	Heavy duty repairman
2.595	Heavy duty repairman— helper
2.325	Laborer
3.255	Operator of power shovel and|or other excavating equipment with shovel-type controls (up to and including one yard)
3.425	Operator of power shovel and|or other excavating equipment with shovel-type controls (over one yard)
2.325	Road oiler

NEWS NOTES FROM TAHOE

by Ethel Joslin Vernon

Rotary Meets

The Tahoe City Rotary met Tuesday noon, July 10, at the Tahoe Inn for the regular luncheon meeting as usual. President Steve Korich presided over a gathering of 50 members and visiting Rotarians. The two visitors coming from the most distant places were Robert Rogers of Seattle and H. Barron Moss of Illinois.

First speaker on this occasion was Rotarian Walter Helm of Richmond, past district governor of Rotary International in 1940-41. In the course of his speech Helm brought to mind bygone days when the entire state of California was known as Rotary District number 2, and told how in those days Rotary clubs could be properly organized only in large cities. He pointed out the contrast of the present day when lcal Rotaries operate in every small community. He also told of a visit he made to Belgium in the old days, and of attending a meeting there where King Albert was Rotary president. He said the king presided from a seat alont at a long table, and no one was allowed to sit within several feet of his majesty.

Second speaker at the meeting was Gordon Ashby of Auburn, who is in charge through the summer season here of the camp for boys and girls on the Episcopal Church grounds, in the woods west of the outdoor chapel. He spoke mainly of the summer activities of the young people in the camp. Bishop Noel Porter is the major sponsor of the camp which has been growing each summer since its organization here six years ago. The bishop said that the number of boys and girls enjoying camp life there this summer average between 50 and 75 as the season advances. They are constantly attended by eight men and women councelors.

Area Progress

The progress of Tahoe City was stepped up another notch during the past week when the Pacific Telephone and Telegraph Company made excavations and put in the foundation for their dial system building on the two lots at Grove and Tahoe streets, formerly purchased from the Pomin family for this purpose. The company very recently added to this property by purchasing the ajoining house and lot which was formerly the home of of the late Ida Pomin. Including this addition, the company has acquired 7000 square feet of land for the construction project. Fred Baker of Kings Beach completed the six-foot-depth excavation for the foundations, using his new heavy-duty back-hoe equipment for the job. Alford J. Hooper, general building contractor, of Oakland, is foreman on the construction, and he says that the cost of the building complete will run around $170,000, and it was tentatively estimated that the installation of necessary mechanism and interior equipment throughout the entire building would close to a million dollars. It is expected that the house on the recently added property may be used later as a kind of dormatory to house whatever help is necessary in the dial offices and other departments.

District Meet

Members of the Truckee-Carson Irrigation District Board, of Fallon, met with Tahoe City PUD directors here on Friday for inspection of reclamation property which the PUD recently proposed leasing from he Fallon board. The property in question, which is rather swampy most of the year and appears to be comparatively useless in any other capacity, is needed by the PUD as about the only space obtainable for added sewage disposal space here, The disposal plant's facilities are beginning to be greatly taxed as the number of users on the system grows with the addition to the town of new homes, motels, business places and various establishments that are served by the PUD. However, the Fallon board seemed undecided as to whether they might be able to take more profit from the land in question in the future by letting it out for some other purpose. Nothing definite was decided at this time.

Women's Club Meets

The Women's Club of Tahoe are holding a meeting Thursday night, July 19, at the Tradewinds in Kings Beach, according to information given by corresponding secretary Carol Marvin. Dinner will be served at 7:30 p.m. A short program will follow the meeting. All reservations were to be in by Tuesday night, July 17th. The Sacramento State College, now in summer session here, invited all the Women's Club members to be their guests at a musical presentation which was held at 8 p.m. Monday evening, July 16th in the Tahoe Lake School auditorium. Refreshments were served following the musical.

Stars At Lake

The George Goebel show, on a week's contract at the Cal-Neva Club recently, is reported a great success, and all reservations were said to be booked solid far ahead of schedule. Two other motion picture stars vacationing here during the past several days and seen at the public amusement places were the small and petite Miss Pier Angeli and the tall and handsome John Derek. Derek was noted taking in the recent Gold Cup races, and evidently enjoyed them greatly. Two other noted actors vacationing at the north end last week were James Stack Jr., and his beautiful movie star wife, Wanda Hendrix. Through the past week they have been entertaining guests at the Stack residenc eon the cliffs above Crystal Bay.

Escapes Death

Last Friday evening, Launce Gamble, Jr., son of prominent lakeshore home owners here, narrowly escaped death or serious injury while driving up the river highway on his way to visit the R. C. Grays, another family of summer residents here. Young Gamble was nearing the Squaw Valley entrance, it is reported, when a large deer evidently blinded by the lights, ran into his car, capsizing it. The young man was miraculously unhurt, but it was said the car was almost a complete wreck.

On Vacation

Mrs. Edna Miller, a resident of the Dollar Hill vicinity, left on Saturday for a week's vacation in Sacramento. She will visit her parents, Mr. and Mrs. Charles Moore of that city.

Entertains

Summer resident Mrs. John Walter, is entertaining house guests this week in her home at Rampart on the Truckee River. One prominent Bay Region pair among them is Mr. and Mrs. Paul Bissinger.

Back From Trip

Mrs. Maxwell C. Milton, an old time summer resident on the lake, is back again from European travels, and has opened her Sunnyside Beach home for the season. She entertained bay area guests during the past week. Mrs. Milton's winter residence is in Piedmont.

Home Again

Mrs. Sydney Ehrman is at home again for the summer at beautiful Pine Lodge on the lakeshore near Sugar Pine Point. Her daughter and grand-daughters are with her for a vacation period from their over-seas home in Paris, France. They are Mrs. Esther Ehrman Lazard, and daughters Christiane and Florence. The father, Claude Lazard, is expected to visit for a time at the Lodge sometime this summer. A sister of Mrs. Ehrman, Mrs. Edward Heller of San Francisco, opened her summer home for the season during the past week, in the mountain home-site tract above Brockway.

Birthday Party

Mrs. Patricia Fox was hostess in her Squaw Valley home on Friday, July 13th at a birthday party given in honor of her young daughter, Mary Tabor, celebrating Tabor's sixth birthday. Tabor's aunt, Jeane Henry, of Tahoe City baked and presented the birthday cake, which was made to represent a merry-go-round and decorated with a number of tiny animals on pins. Mothers and other grown up guests who attended the party included Mrs. David Donaldson, Mrs. Becy Shontz, Mrs. Violet Pomin, Mrs. Betty Starratt and Mrs. Lillian Farr.

The young guests were Nancy and Lynn Donaldson, Dorothy Pomin ,Bro Shontz and Anne and Sally Starratt. The children played outdoor games during the afternoon, and were served the usual delightful birthday refreshments of cake, ice cream, sandwiches, milk and soda pop. The honoree, Mary Tabor, received many lovely gifts which will serve to brighten her memory of her sixth birthday.

LAKE LEVEL

TAHOE CITY— With only one gate into the Truckee river open, the level of Lake Tahoe Monday was 6228.965 feet. The usual ideal summer weather has prevailed with temperatures ranging from a warm 70 to a cool 50 degrees.

At Tahoe—

Mr. and Mrs. John Nerondey are seeing Tahoe City friends, staying at the lake for the summer.

Vacationing—

Mr. and Mrs. James Leamon and son of Sutter Creek have been vacationing at the home of Mr. and Mrs. Harold Langille.

CLERK AUTHORIZED TO EMPLOY AID IN AUDITING OFFICE

NEVADA CITY— Under law, the county clerk and auditor can have extra help to train his new staff in a period of emergency, District Attorney Stoll announced to the board of supervisors. Previously he had said that the law did not provide for hiring help for a new clerk or his staff after a request had been made by County Treasurer and Tax Collector Elma Hecker.

Stoll said he had done further checking and had been advised by the attorney general that the supervisors did have the authority to employ extra help, if necessary, and that Trauner should set up an estimated amount in his budget to take care of this extra help. He said such extra help budgeting would allow employing an experienced person in public finance to help Trauner line up his office and that the person hired would be a county employe during the period he worked with the clerk and auditor.

The question of having someone familiar with the county system aid the clerk and auditor's office came after Trauner with an entirely new staff took over following the death of Ralph E. Deeble and the subsequent walkout of the four women in the office when Trauner became appointed.

Miss Hecker had expressed great concern to the board about training the new persons with the system to keep possible errors to a minimum at this busy time of the year.

Three persons appeared before the board to ask adjustment of taxes as the supervisors also sit today as a board of equalization.

Lyman Straine, auditor of the county books, appeared to ask that the supervisors enter into a contract with his firm to audit the books. He said that Superior Judge James Snell had told him that the question of the grand jury foreman, Charles Kitts, now being a county employe had made the jury enactive at the moment.

Bass In Putah

A recent check of Putah Creek drainage in Napa County, which was chemically treated to remove rough fish, showed a good population of smallmouth bass which were stocked earlier this year. The drainage was treated to eliminate rough fish before water is impounded behind the Monticello Dam.

New Duties Of Water Department Head Given

SACRAMETO —(CNS)— Attorney General Edmund G. Brown ruled that the director of the new state department of water resources succeeds to duties of the state engineer on the Colorado River Boundary Commission.

Brown said the department of water resources took over all of the duties vested in the state engineer under the old law, including responsibilities on the boundary commission.

The opinion was requested by Rufus W. Putnam, commission chairman.

In another ruling, Brown held that the new department will not have to pay filing fees on applications to appropriate water filed under the state water code.

Brown said the department took over the duties of the department of finance in this regard under the new law, and pointed out the finance department was exempted from filing charges.

RULES FOR DRIVING ON VACATION ARE GIVEN BY PATROL

SACRAMENTO— Pack a lot of common sense in your vacation trip says Captain R. B. Langer, commander of the Auburn area office of the California Highway Patrol.

"Vacation time too often includes last minute problems and delays followed by excessive speed and recklessness on the highway in an effort to make up lost time," declared Capt. Langer. "So called minor violations by drivers in a hurry can lead to major accidents and deaths cutting short well earned vacations."

The patrol suggests you check the following tips and add them to your vacation list for more fun and a safe journey.

1. Plan well so you will not need to hurry.
2. Obey all traffic laws, signs and signals even if you are late.
3. Don't try to break a distance record the first day.
4. Load your car properly and avoid blocking your vision.
5. Remember, material tied to the outside can cause trouble so use a trailer if you have too much for the car.
6. If you use a trailer, remember the speed limit is 45 miles per hour unless a lower speed is posted.
7. Do not mix drink with your driving.
8. Drive at a reasonable speed and stay in the right lane on multi-lane highways.
9. Never use parking lights for driving— use your headlights, even at dusk.
10. Make courtesy your companion and bring yourself and family back alive.

High Cost Of Politics Is Shown In State Report

SACRAMENTO —(CNS)— California's high cost of political campaigning was shown today in hundreds of reports of contributors and expenditures filed with Secretary of State Frank M. Jordan, although no total of either is available.

So many filings were received, the secretary of state's office said, that it does not have time to total them up, and further a total is not required by law.

Los Angeles county Republican Central Committee and United Republican Finance committee filed the biggest statement of contributions and expenditures. In a 57-page document, these groups said $791,806 was raised for the primary campaigns, and $585,352 expended. The committee spent $136,386 for the campaign of U. S. Senator Thomas H. Kuchel, Republican nominee.

Senator Richard Richards supporters for the Democratic side, expended $67,086.44, according to the report.

The California Democratic council listed $33,961 in contributions and expenditures for various candidates.

TAHOE BOYS GET AWARDS AT CAMP

SODA SPRINGS— Wayne Poulsen, Jr., and Chris Poulsen of troop No. 27, Boy Scouts of America at Tahoe City were among those who received their second class badges at Camp Pahatsi near Soda Springs last week.

A court of honor was held June 14 after a full week of activities.

The second period of the annual camp activities started July 15th with more than 120 scouts and leaders from all parts of the Tahoe Council attending.

Milk Production

United States cows are producing an average of 5,512 pounds of milk per cow annually, compared to 4,184 pounds per cow in 1935.

GUEST PREACHER—

COMMUNITY CHURCH NOTES

The Rev. Ralph York, pastor of the Woodside Road Methodist Church, will offer the message at the service of worship Sunday. Rev. Osman will preach in Rev. York's church at the same time.

YOUTH GO TO CAMP—

Rev. Osman announces that there are eleven young people in the area that are going to camp. To the Junior Camp at Mt. Shasta, July 22-28 the following are going: Terry Walker, Virginia Barnes, Joe Straub, and Gene McGihon. To the Junior High Christian Adventure Camp at Dardenelle, August 4-11, the following are going: Billy Notley, Stan Stock, Nicky Stone, Sam Medford, Stephani Firpo, Donna Barnes and also Timothy Schoffield who lives in Reno.

Bay Retriever Winner Of Trials On Summit

NORDEN— Brignall's Fleet, a 6-year-old black male Laborador, qualified for the national championship competition by winning the open, all-age stakes in the field trials for retriever dogs sponsored by the Sagehen's Retriever Club of San Francisco.

The winner, owned and handled by Hugh Adams of Bakersfield, became a field trial champion by heading an entry of 34 of the West's leading retrievers.

Napa Wine

Napa County's 1955 wine production was 7,085,000 gallons.

Del Norte Minerals

Del Norte County's 1954 mineral production was valued at $1,349,774.

Your YES vote on Proposition 4 will

STOP **The Spoilers!**

A century ago, when America's natural resources seemed inexhaustible, waste and reckless exploitation were the order of the day. ***The slogan of the spoiler was: "The public be damned!"***

Protect Our Natural Resources

We've come a long way since the Robber Baron era. We've fought to save our precious resources from devastation. We've insisted on conservation—to protect our timber, our topsoils, our water, our fish and game.

Today in California, we have to battle for conservation once more: to save our oil—our most valuable resource of all—from the irresponsible, wantonly wasteful practices and the public-be-damned attitude of the spoilers!

Let's GO *forward* with **4**

Proposition 4—the Oil Conservation Act on the November ballot—will establish a State Oil and Gas Commission to put into effect modern conservation practices which the great majority of responsible California oil producers are ready and willing to abide by.

Double California's Oil Supply

Production methods made possible by Proposition 4 will double California's recoverable oil. Expert petroleum engineers agree on this. Even the opponents of the Act begrudgingly admit that fact.

What does that mean for you—and for all Californians? It means:

- More jobs and business prosperity.
- A huge new source of tax wealth for State, counties and school districts—to help ease ***your*** tax burden.
- Less dependence on foreign oil supplies—a life or death matter in time of national emergency.

Keep Gas Prices Down

Proposition 4 means price protection for you as a motorist--for greater supplies of California oil will help keep gasoline prices down!

Oil Conservation is in ***your*** interest—the public interest.

The Spoilers' way is the backward way.

Let's go ***forward*** with 4!

Vote **yes** on **4**

State Board Meeting To Discuss Assessments In Counties Will Be Held

SACRAMENTO —(CNS)— Members of the state board of equalization will act next Tuesday, July 24, on 1956 county assessment rolls.

Paul R. Leake, board member from Woodland, predicted that a few California counties may receive orders to increase property assessment to bring them to state-wide averages.

"However," Leake said, "we do not anticipate as many orders as there were last year, as for the most part, assessors are bringing the rolls up to the state-wide average."

Last year, the board made 19 orders to as many counties to increase assessments.

All counties complied but one, Tulare, which secured a court order to prevent the increase last year. The board, however, anticipates that Tulare this year will be up to the point where no further order is necessary.

The board, at a meeting Monday, discussed assessment procedures with representatives of the California Manufacturers Association. The association is urging standardized procedures, and is suggesting certain changes in state law insofar as the timing of assessment orders as related to the presentation of tax rolls to the board, is concerned.

RANDY WALKER TO HEAD YACHT CLUB FOR TAHOE EVENTS

TAHOE CITY— R. Randolph Walker this year heads the Tahoe Yacht Club with J. Phillip Murphy, vice commodore; A. G. Steltzner, rear commodore; John Dicks, secretary treasurer and J. Allen Bray, port captain.

Commodore Walker and his officers have planned an exciting schedule for the season including, the annual water ski carnival, five junior outboard regattas, and the annual regatta.

Beautibul trophies have been selected by the trophy committee for all of the events.

Commodore Walker has said that the junior outboard regattas are open to all under twenty-one years of age. Further information regarding the junior outboard regattas can be obtained from the following: Tahoe Boat Company, Obexer's Boat Sales, and the Sierra Boat Company.

The annual water ski carnival will be held July 29th at Chambers Lodge. Tryouts for the carnival will be held at Chambers Lodge July 28th at 9:30 a.m. to 12:30 p.m. and is open to everyone for qualification.

The season promises excitement and thrills especially with the unlimited hydroplanes in the annual regatta.

PETE BENNETT TELLS BROCKWAY ROTARY OF BUSINESS TREND

KINGS BEACH— The weekly luncheon meeting of the Rotary Club of Brockway was held Monday night at Crystal Bay Club and was presided over by H. E. "Pappy" Brooks, the president. Responding to the call for introductions of the visiting Rotarians, the following clubs were represented: Tahoe City, Auburn, Truckee, San Jose, Grass Valley, Petaluma, Chico, West Sacramento, Hollister, Lodi, El Cerrito, Modesto, Huntington Beach, Catalina-Tucson and Charlotte, North Carolina.

President Brooks turned the meeting over to Program Chairman Leon Barker who introduced Pete Bennett as speaker of the evening. Bennett is vice president of the American Hotel Association and active in many other associations. His topic was "The Economic Outlook of the Present and How it may Effect Us in the Future".

He discussed the necessity for business men to meet this challenge and be prepared to operate their business efficiently and in accordance with the changing times.

Sigmund Romberg's gay musical, Rosalie, will be graced by pretty, perky Jana Lund, when the lights go up on the tent covered stage at Sacramento's Music Circus July 16th for a seven day run. This marks the midpoint of the summer musical season with four shows to go. They are: Girl Crazy, Plain And Fancy, Panama Hattie, and The King And I. This week's nightly presentation is The Merry Widow. Civic Theater Box Office in Sacramento is handling ticket sales.

Flood Toll

Effects of last winter's flood's still are being felt by California Department of Fish and Game screen crews. Screens on various irrigation diversions are requiring much greater maintenance due to heavy amounts of silt and debris in streams.

Reserve Wardens

Reserve fish and game wardens, who work without pay or expenses, worked 319 hours, traveled 4,225 miles and issued or assisted in issuing 23 citations during June in Fish and Game Region II with headquarters in Sacramento. In addition, they spent 161 hours on hunter safety training.

Nevada County Shares In State In Lieu Tax Fund

SACRAMENTO —(CNS)— California's cities and counties were $85,501,202 richer today as a result of the apportionment of "in lieu" motor vehicle tax money by State Controller Robert C. Kirkwood.

The money represented funds deposited in the treasury between December 1 and May 31, and brought the total portioned to cities and counties during the fiscal year to $94,464,512.

This was an increase, Kirkwood said, of $14,680,202, or 18.4 percent.

Of the final fiscal year apportionment, $42,750,601 went to counties. Nevada county received 80,314.19 which approximates $4.04 per capita population.

The same amount went to 326 incorporated cities.

Motor vehicle license fees are levied at $2 per hundred of market value on each vehicle, for the privilege of using the highways. The tax is collected in lieu of a personal property tax on vehicles by cities and counties.

Kern County's 1955 wine production was 10,583,000 gallons.

YEAR'S BUDGET FOR TAHOE DISTRICT IS APPROVED AT MEET

TAHOE CITY— At a meeting of fire commissioners of Tahoe City Fire Protection District last Thursday evening the final budget for the fiscal year 1956-57 was set at $4,450. It is $500 over the preliminary budget adopted on June 4th and $1,303 over the 1955-56 budget.

Listed as expenditures are:

Salaries and wages, $420.

Maintenance and operations, $3,330.

Capital Outlay, $700.

Three hundred dollars of maintainance and operations was listed as reserve for expenses between June 1, 1957 and January 1 when funds from the new budget will begin to be paid the district.

Most of the twelve volunteer firemen attended the Thursday night budget hearing, to press for additional funds after C. W. Vernon, clerk of the board fo fire commissioners reported no money left in the 1955-56 budget.

There were 265 conventions and trade shows in San Francisco in 1955.

Motorists Are Warned About Intersections As Causes Of Car Wrecks

SACRAMENTO — Intersections are one of the most frequent areas of traffic accident potential says the California Highway Patrol.

"With nearly one-third of all traffic accidents occurring at intersections, extreme caution is necessary at every corner," declared Ross R. McDonald, Deputy Commissioner of the patrol. "Last year nearly 64,000 traffic accidents in California occurred at some intersection.

In most intersection accidents, right-of-ways are violated resulting in two or more vehicles colliding," McDonald continued. More observance of the right-of-way laws and a lot more courtesy will help eliminate these accidents.

Traffic signals, stop signs, yield signs and caution signs are used to indicate the more hazardous intersections and failure to heed these signs and signals can and often does get a driver into accident trouble," he said. "The safest method is to approach every intersection with caution and consideration for the other fellow, yielding the right-of-way rather than demanding an accident chance."

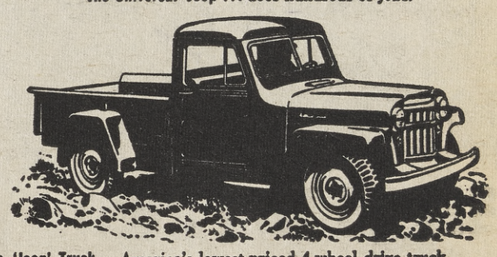
Let us demonstrate the world's most useful vehicles

It's good insurance and good business to own a vehicle that will help you get more work done every day in the year—that's a 'Jeep' 4-Wheel-Drive vehicle. On the highway, it travels at road speeds in 2-wheel drive—a simple shift gives the extra traction of 4-wheel drive for rough travel, on or off the roads. With power take-off, these rugged vehicles operate many kinds of special equipment. There's a 'Jeep' vehicle that will fill your specific needs and serve you best.

The Universal 'Jeep'... does hundreds of jobs.



The 'Jeep' Truck... America's lowest-priced 4-wheel drive truck.

The 'Jeep' Utility Wagon... dual purpose vehicle for business and family.

The 'Jeep'® family of 4-Wheel-Drive vehicles

WILLYS... world's largest makers of 4-Wheel-Drive vehicles

Former Tahoe Gambler Dies In Oxnard Hospital

OXNARD— A one-time multi-millionaire who died recently at Camarillo State Hospital was identified today as Calvin Custer, former gambler who was related to Gen. George A. Custer of the Battle of the Little Big Horn fame.

Custer, 83, died penniless on June 26 from tuberculosis. Custer formerly operated a gambling casino on Lake Tahoe.

TRUCKEE
CHAMBER OF COMMERCE

TAHOE CIVIC GROUP DISCUSSES HIGHWAY

TAHOE CITY— Steps toward obtaining an all year road around Lake Tahoe will be discussed at a meeting called for 8 p.m. Thursday by the Tahoe City Area Improvement Association. The session will be held in the Tahoe City Community Center.

Dr. Stuart M. Dingwall, president of the association, said local residents and the traveling public virtually are without representation while two state agencies, the division of beaches and parks and the division of highways, fight over an issue which will affect the public for years.

Dingwall stated former State Senator Verne Hoffman of Acampo, San Joaquin County, will speak and offer advice on the political steps necessary to achieve effective representation.

The association president announced progress reports will be made on negotiations with the Placer County Planning Commission concerning the new parking ordinance which he said has had a sharp effect on building within Tahoe City.

A report is scheduled to be given, also, on county tax assessments.

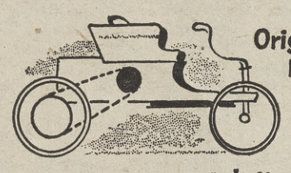
"DRIVING THROUGH THE YEARS"

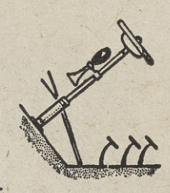
The story of the Motor Car

TRANSMISSION SYSTEMS - YESTERDAY AND TODAY

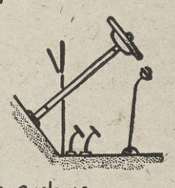


Originally most cars had a simple planetary transmission with **chain drive...**

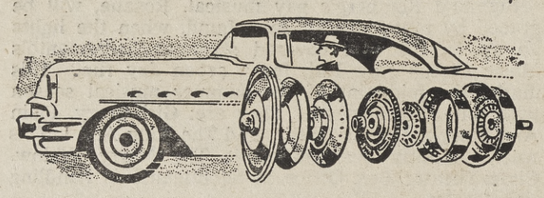
developing into the "**sliding**" gear with four speeds, with floorboard clutch pedal and "**shift**" lever on steering column or at right of driver...



...or the "**three pedal**" shift, with one for low, another for reverse, and one pedal for brake...



...and about **1910** the selective gear shift was introduced, with three-forward and one reverse speed... Improvements such as **syncromesh** gears, "**overdrive**" and "**Hydra-Matic**," followed until in **1948** Buick introduced the **torque converter** transmission, **Dynaflow drive** considered the smoothest and most advanced transmission system on the market today.



Habeas Corpus Papers In Child Dispute Signed

Superior Judge Lowell L. Sparks has signed habeas corpus papers, directing Mr. and Mrs. Donald E. Painter of Lake Tahoe to appear in court with young Donna Lu Painter 2, on July 30, to determine if the child is the daughter of Mr. and Mrs. Charles V. Matthews, who instituted the procedings.

It is the second habeas corpus writ granted in the action, the first having been killed by failure to serve Mr. and Mrs. Painter last May.

Mrs. Matthews claims to be the mother of the child, whose custody she gave up during a period of economic hardship, while her husband was at sea with the United States Navy. She claims to have traced the youngster to the Painter family.

Heavy Plant

Nearly two and one half million rainbow trout fingerlings have been planted in Lake Tahoe.

County Bond Leader Is Praised For Activities

J. C. Tyrrell, Nevada County chairman for the U. S. Savings Bonds program, today received a treasury award for outstanding patriotic service to the bond program.

The "100 Percent Club" medallion is in recognition of this county's having achieved its 1955 sales goal of $280,651. County sales for the year totalled $422,645 in Series E and H savings bonds. County sales for the first five months of 1956 totalled $147,637.

The award was presented by Earl T. Ross, Area Manager for the Treasury's Savings Bonds Division. He praised the efforts of Mr. Tyrrell and others in the county who made the achievement possible.

"The people of this county are to be commended," Ross said, "for their personal thrift and their contribution to a sound national economy. The growing volume of bond sales indicates that the habit is building valuable reserves for future spending. Americans now own more than $40 billion in U. S. Savings Bonds."

TAHOE SCOUT WINS HOMELITE SAW IN CONTEST AT LAKE

TAHOMA— Kenneth Wilson, a member of the Tahoe City Troop of Boy Scouts, has been announced as a winner of a new Homelite EZ chain saw, according to Robert J. Wray, local Homelite dealer.

Kenneth was presented with an opportunity to win the saw while a guest of the Tahoe Rotary Club on April 3 by Wray who handed out the details of the Homelite contest. Kenneth's father is employed by the division of highways.

Plans for the award ceremony are being made by Wray and details will be announced later. Wray is pleased that someone in his immediate vicinity won the award.

PLACER FAIR OFFICE TO REMAIN OPEN

ROSEVILLE— Les McClure, secretary-manager of the Placer County Fair, scheduled August 9-12, has announced that the fair office will remain open, starting immediately, from 8 A.M. to 6 P.M., Mondays through Saturdays.

McClure said the later closing hour has been made necessary by the large number of entries.

Deadline for entering all exhibits, with exception of some in floriculture, is July 28 at 8 p.m.

A check of chukar planting areas in western Merced and Fresno counties showed both airplane and truck plants producing good hatches. Prospects of establishing new chukar populations appear excellent.

WARNING ISSUED TO LIQUOR SALESMEN

SACRAMENTO —(CNS— Russell S. Munro, state director of alcoholic beverage control, has warned liquor wholesalers to stop selling alcoholic beverages to retailers who fail to renew their licenses with the state.

Munro said such incidents have occurred several times within the past year.

The director said it is up to wholesalers to determine if their customers have renewed their licenses before sales are made.

How To Teach Children To Pray

By Mary Reed Newland, author of WE AND OUR CHILDREN

RADIO AND TV announcers have been telling the story of a young child saying her prayers. It seems that as the child reaches the end of the Lord's Prayer, she lisps innocently, "And lead us not into Penn Station."

It is humorous to hear youngsters get confused in prayers they have memorized. But it would be wrong for us to make our attitude towards our children's prayers one solely of gentle amusement.

Newland

OUR TASK of getting to know, love, and serve God is vitally important. The first and final steps to God are made through intimate prayer. The perfect time to start man's course to God is when the man is still a child.

Many people underestimate the ability of children to grasp spiritual truth. They are not surprised when little Jimmy makes a profound remark about his father or mother. It should not surprise them that children can learn a whole lot about God.

I HAVE FOUND from my own children that they can learn to memorize the Lord's Prayer at quite an early age. But the chances of their understanding its meaning are remote. However, it is possible to use the general pattern of the Lord's Prayer and give children a means of conversing with God in a way that makes sense to the child.

When the child says "Dear Jesus" he grasps that he is speaking directly to a Person. "Forgive us our trespasses" of the Lord's Prayer becomes for the child, "I am sorry, Blessed Jesus, and please help me not to be cross again." Right here pre-schoolers can learn that goodness is something which comes only with God's help.

EVERY CHILD will offer petitions for his parents. "God bless Daddy and help him with his work. God bless Mommy . ." My husband and I teach them the petition, "Please help us all to be saints." Sainthood looks fairly easy to a child, and children naturally desire to be saints. Only the adult appreciates how hard it is to be truly holy.

As I tuck in little John, I offer him something to think about. "Before you fall asleep, think about Baby Jesus and how He was just the same size as our Peter." It is helpful to remind children that Jesus helped His Mother with the dishes; that He probably had a cat to feed, and a garden to weed.

STRANGELY ENOUGH, a lot of people who never bother to pray themselves seem to feel that praying has a place in the child's training. Couldn't these parents take a lesson themselves from what they teach their children? After all, prayer is meant for all of us. No one outgrows his duty of serving God.

Children must be taught to eat proper food, and to keep themselves clean. They must brush their teeth too. But they must also be taught how to pray. This is one lesson no parent should fail to give his child.

† Paulist Feature Service, Washington 17, D. C.

Public Works Board Is Studying Proposal To Bar Oil Trucks At Bridge

SACRAMENTO —(CNS)— The state department of public works has taken under submission a protest from the petroleum industry against proposed regulations barring gasoline tank trucks from the new Richmond-San Rafael Bridge, which opens September 1.

The department proposed to adopt traffic rules for the new bridge which have been in effect on the San Francisco-Oakland Bay Bridge. Gasoline trucks and vehicles hauling certain other flammable materials are not permitted to use the Bay Bridge.

Calvin T. Thomas, representing the Western Oil and Gas Association, opposed what he called "unwarranted prohibitive regulations" prohibiting the hauling of gasoline on the new span.

Slaughter Plants

There are 104 slaughtering plants in nine western states under Federal Meat Inspection Service.

Extention Granted For Filing Application For Lower Placer Assessment

AUBURN— The state board of equalization has granted the Placer County Board of Equalization a four day extension, through Friday, to complete its hearings on the requests for lowered assessments filed before 5 p.m. Monday by county taxpayers.

The extension was reported 10 minutes before the day's adjournment. Franklin Tuttle, chief deputy district attorney, notified the board, who said the order was telephoned from Sacramento, where the state board was in session.

Yesterday's session featured requests for reductions from Lake Tahoe residents, many of whom were represented by William Farrell. San Francisco attorney. He insisted on reading into the record the assessed valuation of the home property of Lloyd Geraldson, Placer County assessor.

He asserted Geraldson owned 25.85 acres of land in the Ophir area, assessed at $670, with improvements assessed at $1,370 and personal property at $390.

To each question by the attorney regarding the correctness of the three items enumerated, Geraldson replied:

"I don't know."

Tuttle objected to the board of equalization the tactics of Farrell, asserting Geraldson's assessments were not pertinent in determining if Farrell's Tahoe clients are assessed too high.

"I am entitled to show his own property has not been increased like other properties in the county. This is a factor the board can well consider," Farrell replied.

State Park Commission Under Fire For Road Argument With Loggers

SACRAMENTO —(CNS)— The state park commission came under sharp criticism at a meeting of the senate interim committee on public lands for its refusal to allow use of access roads through state parks for logging operations by private firms.

Criticism was voiced by Edwin J. Regan, Weaverville, committee chairman, and William Schofield, San Francisco, spokesman for the California Forest Protective Association.

Both men charged that the park commission failed to observe the intent of the legislature when it denied use of a road through Prairie Creek State Park in northern Humboldt county for harvesting of timber bottled up behind park lands.

Newton B. Drury, chief of the state division of beaches andparks, told the committee that allowing use of the "very beautiful road" by commercial logging interests would mar the redwood park's scenic beauty.

Spanish Province

Florida, originally settled by the Spaniards, was held as a Spanish province for almost 200 years.

Wholesale City

San Francisco sells more than twice the amount of goods at wholesale, per capita, than any other city in the west.

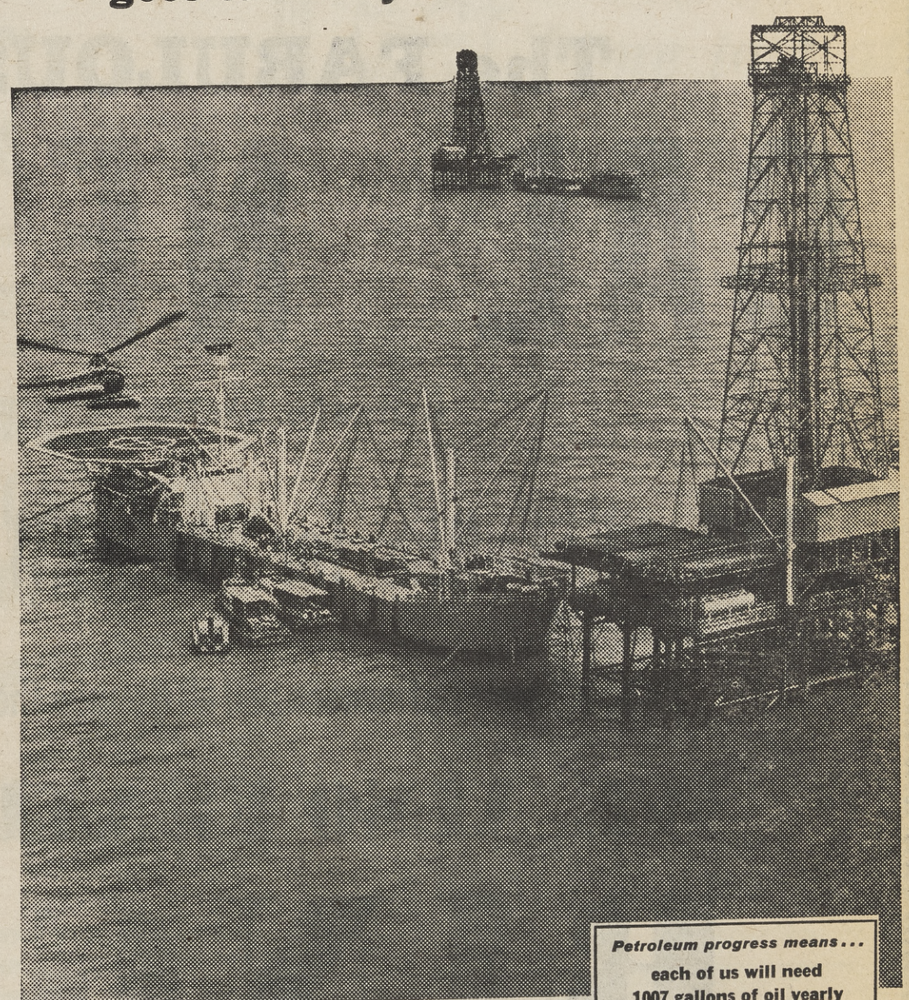
25 cents of every dollar Standard takes in goes to meet your future oil needs



Our search for oil has led to drilling offshore wells like this one (in the Gulf of Mexico) costing nearly 6 times more than land wells.

BUILDING "ISLANDS" IN THE SEA from which to probe the ocean floor is one good example of how we must search farther afield to find the oil America uses in such quantity. And as new sources of oil become harder to find, locating it and bringing petroleum products to you grows more costly.

Last year, a quarter of every dollar Standard took in was plowed back into oil exploration, development of producing fields, research and construction of facilities. All told, during 1955 we invested $347 million to help meet your growing oil needs.

Petroleum progress means... each of us will need 1007 gallons of oil yearly by 1965

1956 817 gallons per capita — 1965 1007 gallons per capita

STANDARD OIL COMPANY OF CALIFORNIA

puts petroleum progress to work for you

NORTH TAHOE

By JUDGE HARRY CHARRISON

Cars, Cars

There was a record number of cars at Crystal Bay last Saturday night. There was a line half way down the Brockway hill and the parking lots were packed even with the two very large lots of Joby's Monte Carlo and the Crystal Bay Club. The one at the latter is exceptionally large and all black topped, each club was packed with people and business was really humming as it should be at this time of the year, and we hope it keeps up as it makes it good all around.

World Tour

Had a long letter from the Bradley Wallaces a few days ago. They were in Penang, Malaya, on their world tour, with India, Pakistan, and Egypt next on their travels. They expect to arrive back in New York around August 15th. They report a marvelous time but it is all going too fast.

Wonderful

Had a very nice visit with Dr. A. J. (Bart) Hood. Went over to his new apartment in Brockway, right where the old hospital stood a few years ago. It is really beautiful and is to be known as the Don De Quille Lodge and is already for occupancy. I also looked over his beautiful home in Carnelian Bay and that too is beautiful, and most interesting, some of which is a stuffed tarpon which the doctor caught in the Shark river, Florida, some few years ago. Was also in his boat house where a beautiful trout was swimming around, and no rod, ah me. I am told that the house is for sale. Sure would like it.

Get Rich Quick?

At it again, says Joby. A man and woman played the machines in his casino, but the wrong way, this time with a wire device that just opened the slot and let the coins drop out too fast. He was caught in the act and bags of quarters, nickles and dimes to the tune of around $250 were found in his car. He was arrested by A. T. McCarter, deputy sheriff, of Washoe County and taken to the county jail.

Visitors

Mr. and Mrs. Reece Barnes of Richmond, who are in the wholesale meat business and young, Rickey their son have been here for some few weeks. All three will spend a week or so with Mrs. Blake on the golf course.

Trip

Had a visit from Mr. and Mrs. Benedict of Carnelian Bay. They were telling of a wonderful trip to Honolulu. By all accounts, they had a real good time, but Lake Tahoe looked mighty good to them, with its nice cool mornings and nights.

Cruising

Charles and Mrs. Bench of the Pasadena fire department were visitors at Kings Beach during the week. He of course was a buddy of Dave Ashton who also was a Pasadena fireman. They are having the time of their lives.

Birthday

And what a birthday it was. There was more fun for Martha De Gregorio of Tahoe Vista as this was an all girl party and Martha was in her glory with the following to help her celebrate: Cathy Rockholm, Susan Clackett, Gail Graton, Cathy Chastain, Lita Laborde, Ann Felte, Eline Knudson. Martha was seven years old and she made her debut at the organ, taught by her mother who is really an artist. Among the numbers was Old McDonald had a Farm, Yankee Doodle, and Skaters Waltz. Lots of games were played and to finish this wonderful party, refreshments were served, and motion pictures were shown. Happy Birthday, Martha.

Friends

Had a delightful visit with Beatrice Kay while she was at Cal-Neva last week. We have been friends for quite a few years and she told me she had a nice time with Doug and Mrs. Free and of course, young Larry. It was nice to meet her new husband.

Weather

It's a long time since we talked about the weather, but did you ever know it to be more beautiful. Nice cool mornings and warm days and the lake is just gorgeous. The sail boats on the lake have added so much to its beauty.

Returns

Wyman Williams returned to the lake this week and brought a trim little boat with him. The family made a trip from Kings Beach to Tahoe City and visited the court room (no not with a citation) just to see Beverly, his wife who is the court clerk. Nice going I'll say, pretty soft.

Many Palms

The most extensive collection of palms in the state is at the Huntington Gardens in southern California.

Continental Center

The geographic center of North America is in Pierce County, North Dakota, a few miles west of Devils Lake.

Lake Rotarians Observe Birthday

Earlier this month, members and guests of the Rotary Club of Brockway observed their seventh anniversary as a progressive service organization. At the time, signal honors were bestowed upon M. H. (Hustlin' Hank) Dodd for his outstanding records as program chairman during the past several years. The upper picture shows Dodd receiving a desk set from Secretary E. J. Stokes while President H. E. ((Pappy) Brooks, second from the right and Bill Randall, immediate past president, give smiling approval.

The lower picture shows a part of the large crowd which attended the meeting and program held at the Crystal Bay Club during which Clyde F. Curtis, district governor of District 164 was an honored guest. Curtis declared the program one of the best and most inspiring he had ever attended

FACTS AND FIGURES on "casualties" and "damage" to target areas have been fed into an electronic computer such as this for Operation Alert 1956 to get a lightning-quick picture of the bomb-damage assessments in the 76 target areas throughout the nation. Evaluated data from target areas goes by wire to the operations room at FCDA Headquarters. (U. S. Air Force Photo)

HUGE SUMS WILL BE SPENT AT FOLSOM

SACRAMENTO —(C N S)— The state public works board has approved spending of $3,643,000 for two more redwood groves and a Folsom Dam recreation area to be incorporated into the state's system of beaches and parks.

From appropriations made by the legislature for park acquisition, the board allotted $1,000,000 toward purchase of the Butano redwood forest in San Mateo county, $550-000 for acquiring Hendy Grove in Mendocino county, and $2,093,000 to buy 4,238 acres on the Folsom-Nimbus dam sites on the American River.

Newton B. Drury, chief of the state division of beaches and parks, said negotiations with the Pacific Lumber Company and the Santa Cruz Lumber Company for purchase of the Butano forest should be completed within a few months. The tract being acquired by the state contains 2,433 acres.

Hendy Grove was described by Drury as a virgin redwood stand fronting on the Navarro River.

Leasing of an additional 7,000 acres from the federal government will make the new Folsom park one of the largest in the state.

Total cost of the Folsom project is estimated at $2,787,900, Drury said. The division of beaches and parks will go as far as it can with funds released by the board.

Unemployment Funds Not Effected By Local Employees Insurance

SACRAMENTO —(CNS)— Laid off workers who receive benefit payments under a company's employee security plan are eligible to draw unemployment insurance benefits from the state, Attorney General Edmund G. Brown ruled today.

Brown held that employees contribute to employees' security accounts at the time they receive their wages and herefore are to be considered "paid off" by the company at the time paychecks are delivered.

The attorney general's opinion was rendered concerning a security program adopted by the A. O. Smith Corporation. The opinion was requested by Harry W. Stewart, director of the state department of employment. Brown said the ruling differed from that handed down earlier on the Ford Motor Company's guaranteed annual wage plan. He said each employee under the Smith company's plan "has a fully vested and nonforfeitable interest in the payments made to his account."

On lay off, Brown continued, the employee, at his discretion, may withdraw from his security account an amount not to exceed $40 a week. The employee may leave the security fund intact to be paid to him on retirement or to his beneficiaries in case of his death. If the worker is fired orquits, his security account is paid to him without interest three months after termination of employment.

San Francisco is the natural distribution reaching the rich western market.

Named On Board

SACRAMENTO —(CNS)— Gov. Goodwin J. Knight announced reappointment of Donald C. Bull, Marysville, and Dr. Harry R. Wellman, Berkeley, as members of the state board of agriculture for four year terms. Bull, who has served on the board since 1942, represents canning fruit interests on the board. Wellman, appointed in 1952, represents general agriculture.

SIERRA SUN ADS PAY!

Lots of Meat

During 1955, 104 slaughtering plants under Federal meat inspection in the nine western states processed 9,298,000 head of cattle, sheep and swine.

Third Time

The first two acts for the admission of Colorado to statehood received presidentitl vetoes because of scanty population; the third act in 1875 was successful.

San Joaquin County produced 26,135,000 gallons of wine in 1955.

Miss Adele Parsons To Wed Summit Man In Rites On August 25th

A marriage of local interest will be solemnized August 25, when Miss Adele Parsons, nurse at the Tahoe Forest Hospital, will become the bride of Jack deRyk, operator of the Magic Carpet at Sugar Bowl.

The ceremony will be held in the Episcopal Trinity Church at Nevada City with Rev. Leigh-Pink officiating.

Miss Parsons is the daughter of Mr. and Mrs. A. T. Parsons of Nevada City but has resided here for the past few years. deRyk is the son of Mrs. James Andrews of San Rafael. The couple will make their home at Donner Lake following the nuptial rites.

LOOMIS MAN HERE TO REPLACE LARRIVEE

Bruno Bellotti, for the past three years chief clerk at the Loomis branch of Bank of America, has arrived here and will replace O. J. Larrivee as chief clerk and assistant cashier at the Truckee branch.

Larrivee, who has been here for the past two years, has been transferred to Sacramento where he will serve as assistant to the district operations officer, a good promotion over his present situation.

Bellotti has been with Bank of America since 1946. He is a native of Lincoln, married and has two sons, aged four and five.

Officials Visit Lodge As Rebekahs Hold Session

Mrs. Janet Wortell, district deputy president, and Mrs. Margaret Doolin, district deputy marshall were official visitors to Naomi Rebekah Lodge No. 2 on July 11 when the officers from Dutch Flat gave the local members instruction.

Laura Horman, noble grand, presided at the meeting which was attended by the following visitors: Mrs. Theresa Lyons, past noble grand of Minnehaha Rebekah Lodge in Mechanicville, New York; and Fred Goslow of Gooding, Idaho.

Mrs. Ben King played several violin selections, accompanied at the piano by Mrs. George Kamp and Renee Hall performed solo dances during the program following the ritual.

Mrs. Eleanore Capel, Mrs. Julie Davis and Mrs. Georgia Follett composed the refreshment committee for the evening.

Board Studies Plans To Improve Hospital Here

Bids for the repair of the roof and concrete walks at the Tahoe Forest Hospital were scanned but no immediate action taken at the meeting of the governing board Fridal evening.

Administrator J. J. McGlade reported on a meeting of the state bureau of hospital which he attended at Berkeley on July 9th at which time a program for hospitals in the state was discussed. He also reported on a survey made recently by officials of the American Hospital Association for securing a listing in the association's accredited hospitals.

John Flagg of Tahoe City, a recent patient at the hospital, has presented the institution with a gift of $500 and his permission is being sought to use the fund for the purchase fo a resuscitator, as requested by the medical staff.

Stephani Firpo Will Be Honored On Birthdate

This week will be a special one for Stephanie, daughter of Mr. and Mrs. I. Firpo who will celebrate her 13th birth date on Friday, July 20 by attending the Little League baseball game, with a party to be given at the home of her parents on the following day.

On Sunday the family will be included in the dinner plans while the Firpos attend market at Reno buying fall merchandise for their clothing store.

Great Books Discussion Group Will Meet Soon

The Great Books Discussion group concluded its second session of Sr. Albert Schweitzer's Out Of My Life And Thought with a lively discussion. The presence and participation of Dr. Harry Dixon of the North Dakota State Agriculture College gave added stimulus to the meeting. Dr. Dixon has recently been visiting his brother who has a summer home at Donner Lake.

The next meeting, Wednesday, July 25, will be a discussion of George Orwell's short but provocative novel, Animal Farm. This bit of humorous writing was chosen as a diversion from the scholarly work just completed and another serious work on the life of Gandhi that is scheduled for the August 8 meeting.

These discussions are held in the Community Center Library, located in the high school, and begin at 8:00 p.m. They are open to the public and visitors are welcome. Copies of the assignments may be obtained from the library.

Move To Nevada—

The Mike Goicoa family has moved to Reno.

LAKE CHILDREN TO START SWIM CLASS

Miss Betty Lou Raker, instructor of swimming, announced this week that children in the Lake Tahoe area will start their classes on July 23 continuing through August 10, Mondays through Fridays.

The classes will be taught at Kings Beach at the same location as last year, Miss Raker said.

The schedule has been outlined by her, as follows:

First class, beginners, intermediates, and swimmers who live from Tahoma to Tahoe City, not including Tahoe City, leave Tahoma at 8 a.m. class from 9 to 9:45 a.m. and leave Kings Beach 9:50 a.m. and arrive at Tahoma 10:50 a.m.

Second class: non-bus beginners class from 10 to 10:50 a.m.

Third class: non-bus intermediates and swimmers class from 11 to 11:50 a.m.

Fourth class: beginners, intermediates, and swimmers in Tahoe City and from Tahoe City to Kings Beach leave Tahoe City 11:20a.m.; class from 12:00 to 12:50 p.m. leave Kings Beach 1:00 p.m. and arrive at Tahoe City 1:40 p.m.

BE CAREFUL WITH FIRE!

Placer Officials At Lake—

Lloyd Geraldson, assessor for Placer County and Carl Wheat of the sanitation department, also from Auburn, were official visitors at Lake Tahoe on Wednesday.

Tippin Fishing—

Al Tippin, accompanied by his father from Sacramento has been enjoying a fishing trip in this vicinity. Tippin is a civil engineer and was formerly employed at Ho bart Mills.

Tarzan

by EDGAR RICE BURROUGHS

THROUGH LOKI'S INCREDIBLE HYPNOTIC POWERS, THE APE-MAN WAS ABLE TO SEE FENRIS-- A MONSTROUS WOLF!

SOON THE VISION CONJURED UP BY LOKI FADED. "VERY IMPRESSIVE," COMMENTED TARZAN. "YET, I'M SURE THERE IS NO SUCH CREATURE--"

LOKI SNEERED, "BUT FENRIS *DOES* EXIST--IN A SNOWY CAVE NEAR THE MOUNTAIN SUMMIT!"

BALDAR SIGHED, "IT IS TRUE, MY FRIEND-- AND NOW, REGRETFULLY, I MUST ASK YOU TO PREPARE FOR YOUR SACRIFICE."

IMMEDIATELY, THE APE-MAN WAS LED TO A DUNGEON CELL TO AWAIT HIS FATE.

WHILE HE SAT AND CONSIDERED THE CHAIN OF EVENTS THAT WERE TAKING PLACE, A LAVISH TRAY OF FOOD WAS BROUGHT IN AT MIDNIGHT.

7-22 1324

PRESENTLY, HOWEVER, HIS BLOOD RAN COLD-- FOR THE STILLNESS OF THE NIGHT WAS SUDDENLY SHATTERED BY THE UNMISTAKABLE HOWL OF A *WOLF!*
